## PLANS WELL UNDER WAY FOR DAM

Preliminary Work Nearly Completed for Ogden River's Storage Reservoir.

THOUSANDS OF DOLLARS ALREADY EXPENDED

Will Irrigate 9000 Acres of Land for Weber County Farmers.

OGDEN, Nov. 3 .- The preliminary work of another storage reservoir in Ogden canyon is nearing completion. It comprehends the storage of the flood waters for irrigation purposes, and the installation of a power plant of 2100 horse-power electric capacity.

Power People Control.

Power People Control.

This new company, which will shortly be known as the South Fork Power and Irrigation company, and its organizers are practically the owners of the Ogden Eapid Transit company and allied companies. The site selected is in the South Fork of Ogden canyon, where an immense dam will be constructed to store the flood waters. This project will be not in the least in conflict with that of the Plencer Power company further down the canyon, as outlined in The Tribune of some days ago, it will simply be two storage reservoirs and two power plants with the same waters.

Two Sites Surveyed.

Two Sites Surveyed. The new company has already spent \$1000 on preliminary work. Two sites for a dam have been explored, and on the upper, which is at Cobble creek, much of the preliminary work done will be available for construction, if this site is

selected

Here a dam 50 feet in length at top, 300 feet at the river and 110 feet high is to be constructed on the most approved modern plan. It will form a reservoir two miles back through a region where the land is not capable of cultivation, and will store about 1,00,000,000 gallons, or the equivalent of 20,000 acres feet, sufficient to irrigate 30,000 acres, ordinarily. The area of this reservoir will be something over 500 acres.

Will be Rice Dam.

Will Be Big Dam

Will Be Big Dam.

The second proposition is for a dam about one and one-fourth miles lower in the camyon and comprehends a dam 160 feet high, \$30 feet long on top. 160 feet at the river bed, and having a storage capacity of 50,000 acre feet. In either proposition there are ample power possibilities. It is expected to generate 2100 horse-power, and of this the street railway will be a market for 7000, leaving 1400 horse-power for sale. Work on the project has been progressing all summer, and will continue until frost.

Irrigate Large Tract.

This project, taken in connection with that of the Pioneer Power company, means the storage of sufficient water to recialm 90,000 acres of now uncultivated lands north and west of Ogden.

#### GARLAND PROSFEROUS.

Prices of Land Around Sugar Factory Advance Rapidly

Special to The Tribune
OGDEN, Nov. 2.—W. H. Rowe, formerly
of Salt Lake, but now commercial agent
of the Amalgamated Sugar company at
Carland, is in Ogden today. He reports
great prosperity in Gorland, not alone on
account of the sugar best industry, but as
well because of the general development
of the surrounding country. The population, he says, has already reached a thousard, and the little hustling town has
electric lights and is alming for other
modern improvements.

Advance in Land

# SHOCKING CASE IS

William J. James of Paradise Is the Defendant in the Trial.

HIS NIECE IS THE PROSECUTING WITNESS

Testimony Shows a Condition of Depravity That Is Most Horrible.

special to The Tribune. LOGAN, Nov. 1.-The case of the State As William J. James of Paradise, this county has engaged the attention of Judge Maughan been shocking in the extreme, evincing a condition of depravity that is horrible, viewed either from the side of the prosecution or that of the defense.

Niece Is Prosecuting.

The proceculing witness is Isabel, daughter of David James, a young woman of 20 years, with a baby in her arms. In her testimony she swore that her uncle, the defendant at the bar, is the parent of her child, which was born July ist. Her parents and other residents of Paradise have testified to the same effect. The defense has directed its efforts to rebut all this, endeavering to show that a conspiracy exists, the purpose of which is blackmall, 1000 being the amount asked of the defendant for keeping the crime quiet and the

Defendant Practically Admits Guilt. The defendant testified today describing various efforts that have been made to exert both a confession and money from him, all of which he has met with positive refusal. He said his two brothers, David and John, proposed that he should marry the girl, and pay her \$1000 for maintenance, but he under no obligation of living with her, he being permitted to go away for three or four years, until the incident should be forgotten.

Law Against His Marrying Girl. He also stated, as did other witnesses, that his brothers, named above, came to Logan to ascertain whether the law would permit persons so near of kin as uncle and nicce to marry, but found the law against the proposition.

Queer Explanation.

He explained that his going to California February 4 last was not out of fear, as al-leged, but in response to the earnest solicita-tion of his aged parents who were fearful for his safety. He said that his going to Black-foot, Ida. on his way back from the coast in-stead of returning to Paradise, was not to secape presecution, but to "see the country."

Feeling Runs High. There are many persons in south Cache county interested in the case, and the lines were sharply drawn, feeling running high, and bitterness being sharply emphasized, this fact coming into strong relief as witnesses on both aides have testified, but appearing nowhere to such advantage as when on the witness stand. Affred A Law denounced J. K. Roberts as a flar, thirf, scotimeral and adulterer, without being rebuked by the court.

Cabinet Takes up Judge's Alleged Indiscretions.

WASHINGTON. Nov. 2.—President Roosevelt and his Cabinet conferred for more than two bours at the executive offices today. The meeting is the first to be held since the promulgation of the order abjuring members not to discuss with correspondents of newspapers on the questions not fully settled, and therefore no effort was made to interview members when the sessions closed. The case of United States Circuit Judge Baker of Indians, charged by the Civil Service commission with soliciting campaign contributions, received some attention, and it was the general opinion that no further proceedings are practical under the circumstances. An official statement in this case probably will be made in the next few days. WASHINGTON. Nov.

Bishop Argyle Has Two Horses Killed, but Escapes With Life.

Special to The Tribune.

SPANISH FORK, Nov. 1.—Bishop Argyle of Lake Shore had a miraculous escape from death while driving from the best sugar factory at Leland today toward Benjamin. He failed to notice the doubleheader freight train that was approaching as he neared the Benjamin switch, and the train was upon him before he could either cross the track or turn back. The train dashed into the borses, killing them both instantly. How Bishop Argyle escaped instant dash, also, will forever remain a mystery. At first he escend to have suffered no injury whatever, but later it appeared that he must have suffered some internal injury, and was taken to Payson for medical treatment.
